

Environmental Policy Statement:

Windsor Roofing Specialist Limited's Environmental Policy is to reduce the impact of the company's operations on the environment, as far as is reasonably and practically possible. Our aim is to endorse sustainable and environmental work practice to staff and engineers who work on behalf of Windsor Roofing Specialist by:

- Complying with all applicable environmental UK statutory legislation and sustainability Commitments.
- Reducing the company's carbon footprint where possible to positively change the company's contribution to climate change.
- Use ULEZ compliant vehicles with our fleet management program
- Lights and electrical equipment will only be left on when in use.
- Heating will only be used conscious of energy consumption.
- We aim to have 100% of incidents detrimental to the environment reported and investigated with action taken to prevent reoccurrence.

- Preventing pollution and reducing consumption of resources through recycling where appropriate.
- Incorporating energy efficiency measures into the company's facilities and promoting efficient energy use in all areas of business activity
- Promoting and continuing to invest in technologies that provide more efficient alternatives to customers with the environment in mind e.g., Insulation to prevent heating use after we have left projects and materials like IKO and Sika
- Ensure our staff and engineers are aware of the environmental impacts of their work activities and encourage them through regular awareness training inductions to help minimise those impacts.
- Reduce, re-use, recycle through our business activities

Windsor Roofing Specialist will review this policy statement on an annual basis to reflect new legal and regulatory developments and promote good practice.
